# FALL CHECKLIST

## Fall maintenance tips for your home

- Check dryer lint traps and remove any lint build up
- Clean leaves or debris from eavestrough
- Drain and store outdoor hoses
- Close interior and drain valves to exterior hose bibs
- Clean or replace furnace filter & check HRV
- Turn on gas fireplace pilot light
- Cover air conditioning unit
- Remove covers from air ducts, cold air returns & vacuum dust from vents
- Check sump pump for overall operation by checking float & discharge line
- Check & reset ground fault circuit interrupter {GFI} (ie. Exterior outlets, bathroom or at main panel)
