WINTER CHECKLIST

Winter maintenance tips for your home

- Check air ducts, remove covers & vacuum dust from vents
- Vacuum bathroom fan grill
- Check for excessive build up of ice or snow on roof and take safe measures to remove
- Keep snow clear of gas meters, gas appliance vents, exhaust vents and basement windows
- Clean or replace furnace filter & check HRV
- Test smoke alarms & carbon monoxide detectors
- Run water from taps and flush toilets in locations where not frequently used
- Monitor moisture levels in your home and try to maintain at 45% (use hygrometre provided by Mikmada Homes)
